

AWAKE Church Planting LOVE

CPC's mission is to make and mature more followers of Christ. This is the heart of Jesus' command in Matthew 28, known as the Great Commission, and its fulfillment is church planting.

According to the International Bulletin of Mission Research, the world is becoming more religious, not less, but Christianity is growing at a slower rate than Islam, Hinduism or Sikhism. The same research also found that cities are the growing mission field where the urban population grew up to 56% and the poor and slum dwellers doubled. In addition, there are over 4B unreached people in the world.

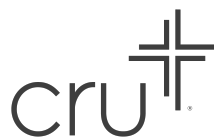

SOURCES: IMB Global Research, Christian TrendWatcher

In partnership with church planting missionaries and organizations globally, CPC is involved in making the gospel heard through evangelism, church planting movements in urban areas and to the unreached people groups. We invite you to learn how you can get involved.
